N. Anderson, Grosse, Grote, Rogers

If we missed you, come and fill in where needed!

MINUTES OF THE APRIL MEETING

Twenty members attended. The plan to erect our tent as a "drill" for the May Pancake Breakfast was scrubbed due to gale force winds. Let's hope that this "bad rehearsal" makes for a "good opening".

Lucky John Kemper won $34 in the 50/50 raffle. The 50/50 raffle has been supporting our web site.

We welcomed new member **Larry Dagley**.

Members were briefed on plans for the May Fly-In Breakfast and hand bills were distributed for posting around the county.

A resolution was unanimously passed to request an FAA Exemption #711A to provide airplane rides for donations at the Fly-In Breakfast May 12 & 13.

The Big Foot, WI pilots Assn. (soon to become an EAA Chapter) will lend their "cake cookers" and expertise to our Fly-In Breakfast. In return, we will lend them our tent, tables & chairs and volunteer help for their Breakfast June 23 & 24. Keep these dates open – Big Foot puts on a "good-un" any you'll have fun there!

No other business came before the membership.

Three generations of Navlyts at a recent Chapter meeting. From L. to R., Ron Sr., Ron III and Ron Jr.

East Coast, Toughkenamon, PA Oct 5-7
Southeast, Evergreen, AL Oct 5-7
Copperstate, Mesa, AZ Oct 11-14

SHhhh!

Do any of us think we are part of the aircraft "noise problem"? Perhaps the following from the last EAA Chapter 153 Newsletter might serve as a wake-up call:

> "Because of complaints … the City (Schaumburg) has requested that pilots taking off from Runway 11 follow an unusual pattern that deviates from the course of the Runway and has an extended upwind leg over inhospitable terrain."
>
> … "The City is trying … to hire spotters to record the N number of any pilot who violates the procedure." … "The City has said that it will revoke the leases for hangars and tie-downs of repeat violators." … **"The City's noise abatement rule has played a role in Chapter 153's decision to not sponsor Young Eagle flights at Schaumburg Airport this year."**

Hey, this is Schaumburg where there are no large or jet aircraft! Let's let this be a reminder for us to be good neighbors and avoid over-flying populated areas when departing 10C -- when returning to land (especially on 27) keep your pattern at 800' AGL (at reduced power settings) until necessary to begin descent for landing.
